

The Custom Storage Box has the appearance of a bound comic, but inside the cover is a box designed to hold unbound comics for temporary or long term storage of very valuable issues.

The box is designed to hold current standard comics with bags and boards in the following sizes: 1 inch holds 12 issues, 1 1/2 inch holds 18 issues and 2 inches holds 24 issues. We do not recommend making the box any thicker than 2 inches, but they can be made thinner to hold just 1 issue if needed.

The outside cover can be made to match your present bound comics. The inside is limited to black, red, green or blue linen.

Standard lettering includes computer stamping with panel lines.

Front cover, die stamping and handset lettering may be done for an extra charge as shown on the price list.

There is no stamping on the inside of the box. Since the box is designed to hold the comic stored with the bags and boards, the overall height of the storage box is taller than a bound comic by one half inch.

The cost per completed Storage Box is \$28 each, plus tax for Texas residents, plus return shipping by UPS.
